MEMORANDUM FOR: Director of Training

25X1A FROM : [REDACTED] Executive Officer,
Deputy Director for Administration

SUBJECT: : Lack of Proper Classification

Rod:

25X1A 1. Attached is a memorandum from Stan
25X1A [REDACTED] with copies of other material relating to
the [REDACTED] Copies were for- 25X1A
warded to CCS, and it appears to me that [REDACTED]
has caught us with a "gotcha."

25X1A 2. I don't think it's necessary to go into
25X1A bit by bit the problem that is raised by stamping the
material "Administrative-Internal Use Only," because I
think the information which clearly relates [REDACTED] 25X1A

[REDACTED] It would be appro-
priate if copies of the correspondence already distributed
would be recalled and appropriately classified. I think
I am correct in thinking that a "Secret" classification
is in order, although I would not be inclined to argue
against "Confidential." It is clear, however, that
"Administrative-Internal Use Only" is not proper for this
correspondence.
